Shiner Ranches Inc.
PO Box 26
Lemhi, ID 83465

Dear Hawley Creek Permittees,

The following letter will document your meeting with Ingrid Drieling, Thayne Kauer, Karl Tyler, Kristine Tyler, and Tyson Lind on May 8th, 2015 and will serve as your Annual Operating Instructions (AOI) on the Hawley Creek C&H allotment for the 2015 grazing season. The authorized use for the Hawley Creek C&H allotment for cattle with the  brands will be as follows:

Permitted Use

<u>Allotment</u>	<u>Permittee</u>	<u>Number/Class</u>	<u>H.M.</u>	<u>Dates</u>
Hawley Creek C&H	Leadore Land Partners	316 c/c	956	7/1-9/30
	McFarland Livestock	302 c/c	913	7/1-9/30
	Shiner Ranches	247 c/c	747	7/1-9/30

Authorized Use for the 2015 Grazing Season

<u>Allotment</u>	<u>Permittee</u>	<u>Number/Class</u>	<u>H.M.</u>	<u>Dates</u>
Hawley Creek C&H	Leadore Land Partners	253 c/c	765	7/1-9/30
	McFarland Livestock	242 c/c	732	7/1-9/30
	Shiner Ranches	198 c/c	599	7/1-9/30

<u>Allotment</u>	<u>Unit</u>	<u>Number/Class</u>	<u>H.M.</u>	<u>Dates</u>
Hawley Creek C&H	Lower Ranch	693	387	7/1-7/17
	Little Bear/Stove/Poison	693	570	7/18-8/11
	Upper Ranch	693	501	8/2-8-23
	Big Bear	693	410	8/24-9/10
	Little Bear	693	456	9/11-9/30
	Little Bear Riparian	Incidental use before 8/15		
	Fish Pasture	Incidental use before 8/15		
	Quaking Aspen	REST		

Only cattle with the  brands are authorized to graze on the Hawley Creek C&H allotment. The Annual Operating Instructions are made part of your Term Grazing Permit as per Part 2, item 8(a) of the General Provisions and Regulations. Situations may develop during the grazing season which requires changes to these instructions. Dates listed in the authorized use section may vary based on management needs or range readiness and proper use standards. **If changing unit move dates becomes necessary, or if you cannot comply with some part of these instructions, contact Ingrid**

Drieling and obtain approval before initiating changes or deviating from these instructions. Changes can be made based on resource objectives, provided the changes are first approved and documented by an authorized officer. Any extension of use beyond the permitted dates will not be authorized.

Allowable Use

The allowable use standards for the Hawley Creek C&H allotment are listed below. It is your responsibility to be aware and recognize utilization and alteration standards. You must move your livestock to the next unit planned, or off the allotment, when those standards have been met. If you need assistance determining utilization levels please contact Ingrid Drieling and she will assist you. **Once cattle are removed from a unit in accordance with use standards and unit scheduling, they are not allowed to return. Please ensure you clean all livestock from your units.** The Forest Service is responsible for monitoring your compliance with allowable use standards. Monitoring typically occurs within two weeks of your unit move date. Please contact your Range Specialists if you would like to join them when monitoring your allotment.

Hawley Creek C&H

Key Area Location	Unit – Creek	Monitoring Attribute	Annual Use Indicator	Key Species	Trigger
M302	Little Bear/Stove Creek Unit – Reservoir Creek	Greenline stubble	6 in	Carex	7 in
		Bank alteration	20%	N/A	15%
M276	Big Bear Unit – Big Bear Creek	Greenline stubble	5 in	Carex	6 in
		Bank alteration	10%	N/A	10%
M304	Fish Pasture Unit – Big Bear Creek	Greenline stubble	6 in	Carex	7 in
		Bank alteration	15%	N/A	10%
M303	Lower Ranch Unit – Reservoir Creek	Greenline stubble	6 in.	Carex	7 in.
		Bank alteration	10%	N/A	10%
M298	Little Bear Unit – Little Bear Creek	Greenline stubble	5 in	Carex	6 in
		Bank alteration	20%	N/A	15%
M280	Big Bear Unit – Meadow Creek	Greenline stubble	5 in	Carex	6 in
		Bank alteration	20%	N/A	15%
Upland sites	All Units	Utilization	Up to 50%	Upland grass species	45%
Riparian Areas	All Units	Utilization by Key Species	50%	Riparian grass species	45%

Conservation measures

The following measures will be implemented as part of the Hawley Creek Allotment's annual operating instructions (AOI) to avoid and reduce potential impacts to ESA listed fish:

1. A deferred rotation grazing system will continue to be used. Early season use provides benefits to riparian vegetation. This will help meet our long term riparian resource objective for greenline successional status.
2. The on date will be varied so that livestock will be placed on the allotment at range readiness. This will reduce potential for bank alteration. This will help meet our long term riparian resource objective for bank stability.
3. Annual use indicators will dictate when livestock are moved between units or off the allotment within the terms of the term grazing permit including moves in response to fish spawning. This

will help us meet our long term riparian resource objectives. Annual use indicators will be monitored by Forest Service personnel.

4. Permittees will continue to salt at least ¼ mile away from streams. This will continue to reduce potential impacts on riparian areas, spawning areas and designated and proposed critical habitat.
5. Permittees will continue to distribute livestock away from streams and associated riparian areas (ride) one day every two weeks, reducing potential impacts on riparian areas, spawning areas and designated and proposed critical habitat.
6. Fences and water developments have been placed to reduce livestock use on streams and their associated riparian areas. This will continue to reduce impacts on riparian areas, spawning areas and designated and proposed critical habitat.
7. Little Bear Riparian Unit has a fence around Little Bear Creek. The fence helps manage use along Little Bear Creek.

Actual Use and Improvement Maintenance Reports

Your accurate documentation of actual use and maintenance is vital to the yearly allotment record. Numbers, move dates, riding and photos are all items used to compile End of Year reports written by your Rangeland Management Specialist. These reports are submitted yearly to the service agencies and published on the web.

Actual use and range improvement maintenance forms have been included for you to complete and return within 30 days of your off date.

Range Improvements

Range improvements listed in Part 3 of your grazing permit **must** be maintained prior to livestock entering the allotment. Contact your Rangeland Management Specialist to discuss materials and supplies for any improvements that are in need of re-construction.

You were provided with an improvement list and map to document the condition of the Range Improvements on your allotment. Please complete the document and return it to your Rangeland Management Specialist.

The following improvements were discussed for the Hawley Creek C&H allotment:

- Replace troughs at Reese Spring and Stove Creek with 10' or 12' round fiberglass troughs
- Trough 4139 the line to the bladder needs to get replaced. It will take approximately ¾ mile of 1 ½" pipe.
- Would like to put a new trough in Deer Creek – trough in trees needs reset and replaced.
- Fence 4320 brace needs fixed on the top at the divide.
- 4106 fence needs replaced – This will be a big project in 2016 that the whole group will work on.
- Gates and braces between Big Bear and Little Bear need replaced.

General Management

An Allotment visit with permittee is scheduled for June 23rd

The grazing fees for 2015 are the base rate of \$1.69 per head month. Payment of your grazing bill is due prior to your earliest turnout date.

The Salmon-Challis Travel Management Record of Decision was signed December 24, 2009. With the issuance of this decision, all roads and trails designated for motor vehicle use map (MVUM). As detailed in 36 CFR 261.13; 36 CFR 212.51a the prohibitions on motor vehicle use will not apply to motor vehicle use that is specifically authorized under a written authorization issued under Federal law or regulation. **Effective March 20th, 2015 the Salmon Challis National Forest requires a Vehicle Use Permit, signed by the District Ranger, for ALL closed roads or off road travel. This must be displayed in windshield for Trucks or carried on ATV's, UTV's and Motorcycles. Contact your Rangeland Management Specialist to obtain a Vehicle Use Permit for any closed road or off-road travel.** Motor vehicle use maps may be obtained at any Salmon-Challis Ranger District.

Approval of requests for personal convenience and resource protection nonuse is not automatic and the authorized officer should discuss the reasons for the nonuse request with the permittee. Requests for non-use must be done in writing and the approval of a request for non-use must be in writing by the authorized officer. Full or partial permittee convenience nonuse may be approved by the authorized officer for no more than three consecutive years and not more than four years in any ten year period.

Dead livestock must be moved at least 100 yards from water, roads, and trails.

Place salt at least ¼ mile from water sources and in areas lightly grazed to encourage an even distribution of utilization on the range.

Invasive weeds are becoming a serious threat to the welfare of our rangelands. Your assistance is needed to identify new outbreaks of weed populations and to prevent the establishment of weeds on the forest. We have implemented a Noxious Weed Free Hay order on our Forest. This will require any hay that is brought onto the National Forest to be certified free from noxious weeds.

If you spot a wild fire, report it immediately to the Central Idaho Interagency Dispatch Center in Salmon, ID at (208) 756-5157.

If you have any questions regarding any of the allotments for which you have permits, please call Ingrid Drieling at (208) 768-2516 or myself at (208) 756-5247.

Sincerely,

/s/ Jay Winfield
